We will talk to Peter Wright on the notice of objection and then get back to you all. Interestingly this issue came up when I was in region 1 – ORD weighed in on the effectiveness of PFAS incineration (what temperatures etc.)

I think this article is OCSPP related. Any thoughts on this we can share with Senator Burrs office? Thank you!

Christian,

Can you provide any background on this article from EPA's perspective, specifically what a notice of temporary objection does?

Thanks,

John
